**Subject:** RE: Thankyou

Hi Kirk,

I am sure you must be keeping busy trying to get those "aches and pains" out of peoples' car. Just wanted to Thank You and your team for a great job you did on my car, recently. From a simple timing belt replacement it came to replacing the oil pump just because somebody at the dealership, "goofed" up with the bolt work, prior to purchasing the vehicle. Anyway the car runs beautifully having clocked 500Kms just over the last weekend!!!!!!!!!!!!!!!!!! Good luck and keep up the good work.
