Subject: Thank You

Hi Kirk. Just wanted to drop you a line to thank you and your staff for the high quality of work that you have performed on my Cavalier over the last few months. Even though my Cavalier has suffered probably more than its fair share of ills, I always feel very confident that when I take the vehicle to your shop I will get things fixed right the first time. As a result, I am assured that the vehicle will function as my daily commuter for a few years.

I will continue to take the Cavalier to your shop for all its service, and plan to take my other vehicle to your shop for service starting in the New Year. I also have told a number of friends and relatives about your shop and the great work that you do.

Again, thank you for everything.
